BUILDING TRUST

SikaSeal®-106

IF YOU ARE TIRED OF CRACKED AND DISCOLORED JOINTS, OF STICKY AND DISCOLORED PAINT, OF CRACKED AND STAINED SUBSTRATES – USE **SikaSeal®-106**: YOUR TRUSTWORTHY PARTNER FOR INTERIOR FINISHING.

DESCRIPTION

SikaSeal®-106 is a soft, paintable and elastic-plastic sealant. It is based on Sika's latest modified acrylate polymer dispersion technology. SikaSeal®-106 was developed to meet the needs of plasterers, painters and interior decorators; a reliable and compatible sealant that can accommodate movement.

THE SEALANT FOR CAREFREE INTERIOR FINISHING

- Elastic and non-cracking
- Paintable
- Compatible with paints and sensitive substrates
- Color stable
- Good adhesion to most substrates

SikaSeal®-106 IS THE BEST CHOICE FOR SEALING

- Dry-wall, plaster wall and ceiling joints
- Connection joints to wood panels, beams and wall casing
- Connection joints to door and window frames
- Joints to EPS, plaster and other weak substrates

PRODUCT CLASSIFICATION AND CERTIFICATION

- CE: EN 15651-1 F EXT-INT CC 12.5 E
