# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

Trade name

: Sika<sup>®</sup> ViscoCrete<sup>®</sup>-2810

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use : Concrete admixtures

## 1.3 Details of the supplier of the safety data sheet

| Company name of supplier | : | Sika Nederland B.V. |
|--------------------------|---|---------------------|
|                          |   | Zonnebaan 56        |
|                          |   | 3542 EG Utrecht     |
|                          |   | Nederland           |
| Telephone                | : | +31-30-2410120      |
| Telefax                  | : | +31-30-2414482      |
| E-mail address of person | : | EHS@nl.sika.com     |
| responsible for the SDS  |   |                     |

#### **1.4 Emergency telephone number**

+31-57-0854201

# **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

#### Classification (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to Regulation (EC) No. 1272/2008.

#### 2.2 Label elements

# Labelling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to Regulation (EC) No. 1272/2008.

#### **Additional Labelling**

EUH210 Safety data sheet available on request.

EUH208 Contains 1,2-benzisothiazol-3(2H)-one (BIT), 2-octyl-2H-isothiazole-3-one (OIT), reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1), triisobutyl phosphate. May produce an allergic reaction.

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Revision Date: 26.11.2024 Date of last issue: - Version 1.0

Print Date 29.11.2024

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Contains a biocide in order to protect the product. Active ingredient: 1,2-benzisothiazol-3(2H)-one (BIT), 2634-33-5, reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1), 55965-84-9, 2-octyl-2H-isothiazole-3-one (OIT), 26530-20-1. Please use treated articles responsibly.

# SECTION 4: First aid measures

# 4.1 Description of first aid measures

| General advice                                                  | : | No hazards which require special first aid measures.                                                                                                                            |  |  |
|-----------------------------------------------------------------|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| If inhaled                                                      | : | Move to fresh air.                                                                                                                                                              |  |  |
| In case of skin contact                                         | : | Take off contaminated clothing and shoes immediately.<br>Wash off with soap and plenty of water.                                                                                |  |  |
| In case of eye contact                                          | : | Remove contact lenses.<br>Keep eye wide open while rinsing.                                                                                                                     |  |  |
| If swallowed                                                    | : | Do not induce vomiting without medical advice.<br>Rinse mouth with water.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person. |  |  |
| 4.2 Most important symptoms and effects, both acute and delayed |   |                                                                                                                                                                                 |  |  |
| Symptoms                                                        | : | See Section 11 for more detailed information on health effects and symptoms.                                                                                                    |  |  |

| Risks | : | No known significant effects or hazards. |
|-------|---|------------------------------------------|
|       |   |                                          |

# 4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically.

# **SECTION 5: Firefighting measures**

| <b>5.1 Extinguishing media</b><br>Suitable extinguishing media                                                                  | : | In case of fire, use water/water spray/water jet/carbon diox-<br>ide/sand/foam/alcohol resistant foam/chemical powder for<br>extinction. |
|---------------------------------------------------------------------------------------------------------------------------------|---|------------------------------------------------------------------------------------------------------------------------------------------|
| 5.2 Special hazards arising from<br>Hazardous combustion prod-<br>ucts                                                          |   | e substance or mixture<br>No hazardous combustion products are known                                                                     |
| <ul><li>5.3 Advice for firefighters</li><li>Special protective equipment for firefighters</li><li>Further information</li></ul> | : | In the event of fire, wear self-contained breathing apparatus.<br>Standard procedure for chemical fires.                                 |

# **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, protective equipment and emergency procedures |   |                                        |  |  |  |
|-------------------------------------------------------------------------|---|----------------------------------------|--|--|--|
| Personal precautions                                                    | : | For personal protection see section 8. |  |  |  |
|                                                                         |   |                                        |  |  |  |

#### **6.2 Environmental precautions**

Environmental precautions : No special environmental precautions required.

# 6.3 Methods and material for containment and cleaning up

Methods for cleaning up : Wipe up with absorbent material (e.g. cloth, fleece). Keep in suitable, closed containers for disposal.

# 6.4 Reference to other sections

For personal protection see section 8.

# **SECTION 7: Handling and storage**

# 7.1 Precautions for safe handling

|     | Advice on safe handling                         | :    | For personal protection see section 8.<br>No special handling advice required.<br>Follow standard hygiene measures when handling chemical<br>products |
|-----|-------------------------------------------------|------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
|     | Advice on protection against fire and explosion | :    | Normal measures for preventive fire protection.                                                                                                       |
|     | Hygiene measures                                | :    | When using do not eat or drink. When using do not smoke.                                                                                              |
| 7.2 | Conditions for safe storage, i                  | incl | uding any incompatibilities                                                                                                                           |
|     | Requirements for storage areas and containers   | :    | Keep container tightly closed in a dry and well-ventilated place. Store in accordance with local regulations.                                         |
|     | Advice on common storage                        | :    | No special restrictions on storage with other products.                                                                                               |
|     | Further information on stor-<br>age stability   | :    | No decomposition if stored and applied as directed.                                                                                                   |

Contains no substances with occupational exposure limit values.

#### 8.2 Exposure controls

#### **Engineering measures**

Maintain air concentrations below occupational exposure standards. Ensure adequate ventilation, especially in confined areas.

# Personal protective equipment

| Eye/face protection             | : | Safety glasses                                                                                                                                                                                                                                                                                                      |  |  |

Version 1.0

# **SECTION 10: Stability and reactivity**

#### **10.1 Reactivity**

No dangerous reaction known under conditions of normal use.

#### 10.2 Chemical stability

The product is chemically stable.

| 10.3 Possibility of ha | azardous reactions |
|------------------------|--------------------|
|------------------------|--------------------|

Hazardous reactions : No hazards to be specially mentioned.

# 10.4 Conditions to avoid

Conditions to avoid : No data available

#### 10.5 Incompatible materials

Materials to avoid : No data available

# **10.6 Hazardous decomposition products**

No decomposition if stored and applied as directed.

# **SECTION 11: Toxicological information**

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

Not classified based on available information.

## **Components:**

# 1,2-benzisothiazol-3(2H)-one (BIT):

#### Aspiration toxicity

Not classified based on available information.

# 11.2 Information on other hazards

## **Endocrine disrupting properties**

## Product:

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

# **SECTION 12: Ecological information**

## 12.1 Toxicity

# Components:

## triisobutyl phosphate:

| Toxicity to daphnia and other aquatic invertebrates | : | LC50 (Daphnia magna (Water flea)): 11 mg/l<br>Exposure time: 48 h              |
|-----------------------------------------------------|---|--------------------------------------------------------------------------------|
| Toxicity to algae/aquatic<br>plants                 | : | IC50 (Desmodesmus subspicatus (green algae)): 34,1 mg/l<br>Exposure time: 72 h |

# 1,2-benzisothiazol-3(2H)-one (BIT):

| Toxicity to daphnia and other aquatic invertebrates | : | EC50 (Daphnia (water flea)): 3 mg/l<br>Exposure time: 48 h |
|-----------------------------------------------------|---|------------------------------------------------------------|
| M-Factor (Acute aquatic tox-<br>icity)              | : | 1                                                          |
| M-Factor (Chronic aquatic toxicity)                 | : | 1                                                          |

## Product:

Assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher..

#### 12.6 Endocrine disrupting properties

#### Product:

Assessment : The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

# **SECTION 13: Disposal considerations**

# **13.1 Waste treatment methods** Product : The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

| H301                            | :   | Toxic if swallowed.                                            |
| H302                            | :   | Harmful if swallowed.                                          |
| H310                            | :   | Fatal in contact with skin.                                    |
| H311                            | :   | Toxic in contact with skin.                                    |
| H314                            | :   | Causes severe skin burns and eye damage.                       |
| H315                            | :   | Causes skin irritation.                                        |
| H317                            | :   | May cause an allergic skin reaction.                           |
| H318                            | :   | Causes serious eye damage.                                     |
| H330                            | :   | Fatal if inhaled.                                              |
| H400                            | :   | Very toxic to aquatic life.                                    |
| H410                            | :   | Very toxic to aquatic life with long lasting effects.          |
| Full text of other abbreviation | ons |                                                                |
| Acute Tox.                      | :   | Acute toxicity                                                 |
| Aquatic Acute                   | :   | Short-term (acute) aquatic hazard                              |
| Aquatic Chronic                 | :   | Long-term (chronic) aquatic hazard                             |
| Eye Dam.                        | :   | Serious eye damage                                             |
| Skin Corr.                      | :   | Skin corrosion                                                 |
| Skin Irrit.                     | :   | Skin irritation                                                |
| Skin Sens.                      | :   | Skin sensitisation                                             |
| ADR                             | :   | European Agreement concerning the International Carriage of    |
|                                 |     | Dangerous Goods by Road                                        |
| CAS                             | :   | Chemical Abstracts Service                                     |
| DNEL                            | :   | Derived no-effect level                                        |
| EC50                            | :   | Half maximal effective concentration                           |
| GHS                             | :   | Globally Harmonized System                                     |
| ΙΑΤΑ                            | :   | International Air Transport Association                        |
| IMDG                            | :   | International Maritime Code for Dangerous Goods                |
| LD50                            | :   | Median lethal dosis (the amount of a material, given all at    |
|                                 |     | once, which causes the death of 50% (one half) of a group of   |
|                                 |     | test animals)                                                  |
| LC50                            | :   | Median lethal concentration (concentrations of the chemical in |
|                                 |     | air that kills 50% of the test animals during the observation  |
|                                 |     | period)                                                        |
| MARPOL                          | :   | International Convention for the Prevention of Pollution from  |
|                                 |     | Ships, 1973 as modified by the Protocol of 1978                |
| OEL                             | :   | Occupational Exposure Limit                                    |
| PBT                             | :   | Persistent, bioaccumulative and toxic                          |
| PNEC                            | :   | Predicted no effect concentration                              |
| REACH                           | :   | Regulation (EC) No 1907/2006 of the European Parliament        |
|                                 |     | and of the Council of 18 December 2006 concerning the Reg-     |
|                                 |     | istration, Evaluation, Authorisation and Restriction of Chemi- |
|                                 |     | cals (REACH), establishing a European Chemicals Agency         |
| SVHC                            | :   | Substances of Very High Concern                                |
| vPvB                            | :   | Very persistent and very bioaccumulative                       |
|                                 |     |                                                                |
